Altogether Recycling to Sponsor Summit in Aspen

DENVER (March 26, 2008) –Altogether Recycling™, the first Denver-area company to offer competitive single-stream recycling, will sponsor the Colorado Association for Recycling’s 2008 Summit for Recycling at the silver level this year. The Summit, to be held May 18-20 in Aspen, Colo., is Colorado’s premier event for recycling and waste diversion activities attracting the state’s recycling professionals including waste and recycling processors, non-profit organizations, and government agencies.

“The Summit for Recycling provides a great opportunity to meet and exchange ideas with other individuals and businesses that share our goal of recycling and sustainability in our state,” said Brent Hildebrand, vice president of Altogether Recycling.

Altogether Recycling represents the latest in recycling innovation. Customers no longer need to sort their recyclable materials into separate bins. All sorting is done at the facility, which means recycling has never been easier or more productive for the environment.

About Altogether Recycling™

Denver-based Altogether Recycling is a Colorado owned-and-operated entity committed to working with partners throughout the state. Its cutting-edge technology separates a wide variety of recyclable materials from a single, mixed stream. Those recyclables include aluminum, cardboard, bottles, cans, newspaper, office paper and some plastics. Substantial amounts of the commodities recovered at the Altogether Recycling facility are resold to local businesses. The new plant at 645 W. 53rd Place in Denver gives the recycling community a place to join forces in the effort to divert increasing amounts of material away from landfills. Altogether Recycling is a division of Alpine Waste & Recycling. For information, go to www.altogetherrecycling.com.
